

WE BELIEVE;

- * in the smell of freshly baked bread in the morning;
- * that bigger isn't always better...
unless you're referring to Zinfandel;
- * in regular trips to the Farmer's Market;
- * that exceptional service comes from the heart;
- * that cookie cutters should be used for pastry, not
restaurants;
- * in local food & local chefs;
- * that food and wine go together like Carrie Bradshaw
and a cosmo;
- * we believe; that the soul of a restaurant is derived from
the community around it;
- * that formality can hinder the enjoyment of wine,
just ask our 'wine guy';
- * that there is beauty in raw steel,
sandblasted wood and polished concrete;
- * that a well trained culinary team is
more fun to watch than the Leafs—you'll see;
- * that to eat is a necessity, to dine is an art;
- * that our Pastry Chef has an irresistible spirit;
- * that life is too short for bad wine and that the quality
of wine cannot be determined by its price;
- * and—that at the end of the day—we just wanted
to create a really cool place.
